Dear Colleagues,

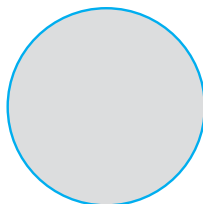

We invite you to the first ever Knee Master course on Complex knee injury in Goa on 15 and 16 Feb 2019 at Ci-dade Goa Resorts. The focus for this years meet is Complex knee injury like Posteromedial corner, Posterolateral corner, Knee dislocations, Multiligament knee injury, cartilage transplant, Meniscus repair with transplant. Having attended several international meetings over the last few decades, our interactions with International faculties, delegates and colleagues have made us believe that there is a greater scope for scientific deliberation on complex knee injuries. We believe that the organizing committee has assembled truly special national and star international faculty to address these issues.

Our understanding of complex knee injuries is still evolving despite volumes of research and literature, and much is to be learnt and discussed. From approach, evaluation, diagnosis to management; all aspects need some deliberation. The special emphasis on Live Cadaveric demonstration of repair technique and reconstruction technique of PMC, PLC, Multiligament Injury.. The course provides us the perfect platform to handle these key issues and serve a grand academic feast. Dr Rob LaPrade is personally designing the scientific programme for this meeting with help of Dr Tim Spalding, Dr Richard Von Borman, Dr Scott Faucet.

On behalf of Organising committee, we extend a warm welcome to all and hope to see everyone in Goa on 15 and 16 Feb 2019.
