

REVOLUTIONARY COLD + COMPRESSION

DECREASE PAIN + SPEED RECOVERY WITH
The NICE1

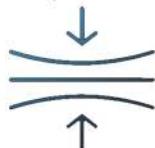

The best cold + compression therapy machine on the market is now available for use at home following your surgery. NICE delivers precise cold therapy without ice. Its continuous programming allows for timed, intermittent cold therapy, maximizing pain relief and swelling reduction, even while you sleep.

COOLING

State-of-the-art technology delivers therapeutic cooling without ice. The most convenient way to apply cold therapy.

COMPRESSION

Programmable intermittent and constant compression greatly improves the effectiveness of cold therapy and promotes healing.

RECOVERY

By combining the therapeutic benefits of cooling and compression in a single-easy-to-use device, recovery times are greatly improved.

"I was recommended to use NICE following surgery and I can truly say have no regrets. Surgery can be a stressful time for anyone, and the NICE machine helped my recovery process immeasurably. The best part was that I could use it throughout the night without having to get up and change my ice pack. I highly recommend this product to anyone who is going to have surgery. My recovery wouldn't have been the same without it." -Alexis W

WHAT PATIENT'S HAVE TO SAY ABOUT NICE:

"I highly recommend the NICE machine as your primary ice and compression device following surgery. I found it immensely helpful in managing the pain and discomfort I experienced. It was so effective that I attribute this device to my easy transition off narcotics. Whenever my knee was painful, uncomfortable, or I had trouble sleeping, I would use the machine with great results. It's incredibly user friendly. One of the standout features was the ability to avoid ice and water replacement, a common inconvenience with other machines on the market."

-Stephanie V

"The NICE cold and compression machine was very helpful in my recovery. I really liked that it iced the entire area and not just a small area like an ice pack does, which enhanced the efficacy. The compression was really nice as well. Because it was so easy to use, I used it every morning, after every round of exercises, and every night before bed. So much better than ice packs!"

-Tate O

*While not covered by insurance, all of the rental of a NICE! is eligible for FSA/HSA spending plans. Pricing includes the necessary wrap as well as delivery and at home pickup (or return shipping, if applicable.)
